THE INSULT THAT MADE A MAN OUT OF "MAC"

Let Me PROVE I Can Make YOU A NEW MAN!

ARE you "fed up" with seeing the huskies walk off with the best of everything? Sick and tired of being soft, frail, skinny or flabby — only HALF ALIVE? I know just how you feel. Because I myself was once a puny 97-pound "runt." And I was so ashamed of my scrawny frame that I dreaded being seen in a swim suit.

The Secret of How I Got My Build

Then I discovered a wonderful way to develop my body fast. It worked wonders for me — changed me from the scrawny "runt." I was at 17, into "The World's Most Perfectly Developed Man." And I can build up YOUR body the very same natural way — without weights, springs or palleya. Only 15 minutes a day of pleasant practice — in the privacy of your room.

My "Dynamic-Tension" method has already helped thousands of other fellows become real he-men in double-

quick time. Let it help YOU. Not next month or next year — but RIGHT NOW!

"Dynamic-Tension" Builds Muscles FAST!

If you're like I was, you want a powerful, muscular, well-proportioned build you can be proud of any time, anywhere. You want the "Greek-God" type of physique that women rave about at the beach — the kind that makes other fellows green with envy.

Mail Coupon Now for My 32-Page Illustrated Book

Mailing the coupon can be the turning point in your life. I'll send you a copy of my 32-page illustrated book, "How Dynamic-Tension Makes You a NEW MAN." Tells how and why my method works; shows many pictures proving what it has done for others. Don't delay. Mail coupon NOW. CHARLES ATLAS, Dept. 3258, 115 E. 23rd St., New York, N.Y. 10010.

THE DEPUTY

SHERIFF'S CORNER

Dear Deputy Sheriff:

There are a lot of things I would like to know about the Old West. For instance, how did the open range come to an end? Was it because of Indians or other things? I have seen barbed wire in the country where we go during the summer. I was told it was invented by a western man. Is this true? In a movie I saw how the cattle men formed an association to protect themselves. Can you please tell me something about this.

Thanks a lot,
Your friend,
Frank L.

Hi Pardner:

The movement of the homesteaders or nesters, into the Great Plains and Rocky Mountains States had started about the same time as that of the cattlemen. Almost unnoticed at first, the nesters soon offered a formidable challenge to the cattle kings. And eventually triumphed over them. Increasing steadily in numbers, they closed in around the large spreads. Staked claims to prime grass and water. And established small farms or ranches. Finding a place along a stream where the cattleman had been unable to preempt every bit of adjacent land, a farmer would stake his claim. And dig an irrigation ditch to supply his fields. A second farmer would homestead to the rear of the first. And the ditch would be extended to the second farm. And so the farms would multiply. Farmers shot trespassing cattle and drew upon the herds for their beef supply. They called such meat "slow elk." Then they began to fence the open range.

Now about the barbed wire. For years an answer to the need for a cheap fencing material for the open West had been sought. The farmers at first had planted the thorny Osage-orange and black locust hedges that were drought resistant and reasonably stock proof. Then in 1873, Jacob F. Gilden, a De Kalb, Illinois farmer, invented barbed wire. Slow to sell at first, the new two-strand wire gradually found a market when it was proven that cattle actually were kept in - or put - by it. Homesteaders began fencing their acres and small ranchers their grass. And the pro-

ponents of the open range were brought face-to-face with their greatest challenge:

The first lands to be fenced were those with a supply of water. The owner naturally kept out those animals that did not belong to him. And pushed them back on the overcrowded open range. Once fencing got underway on a wide scale, the large ranchers had to just make a choice. They could join the movement or they could fight it. To do nothing would bring ruin. By 1883 fence-cutting "wars" were widespread. In Texas, for example, in more than half of the 171 organized counties fence cutting assumed epidemic proportions. In some counties the proponents and opponents of barbed wire were so evenly divided that civil war seemed imminent. Governor John Ireland was forced to call out the Rangers. And invoke a special session of the legislature to consider the problem.

The legislature made fence cutting a felony. And ruled that the enclosing of any land not owned or leased was illegal. Finally, public opinion swung against the fence cutter, and the "war" drew to a close. The Texas experience was repeated elsewhere. Until the cattle kings were forced to join in the enclosure movement. Other factors hastened the spread of fencing and also the end of the open range era. They were the extension of the railroads, the discovery of more adequate ground water, and the use of windmills to obtain it. The large cattle companies, most of them owned by Eastern capitalism, led in the fencing movement. And gradually the lesser cattle kings followed.

That's about all I have room to tell you. I got more letters to answer. So wait for them and maybe you'll learn more about what you want to know.

The Deputy Sheriff.

An Important Message To Every Man And Woman In America Losing His Or Her Hair

If you are troubled by thinning hair, dandruff, itchy scalp, if you fear approaching baldness, read the rest of this statement carefully. It may mean the difference to you between saving your hair and losing the rest of it to eventual baldness.

Baldness is simply a matter of subtraction. When the number of new hairs fail to equal the number of falling hair, you end up minus your head of hair (bald). Why not avoid baldness by preventing unnecessary loss of hair? Why not turn the tide of battle on your head by eliminating needless causes of hair loss and give Nature a chance to grow more hair for you? Many of the country's dermatologists and other foremost hair and scalp specialists believe that seborrhea, a common scalp disorder, causes hair loss. What is seborrhea? It is a bacterial infection of the scalp that can eventually cause permanent damage to the hair follicles. Its visible evidence is "thinning" hair. Its end result is baldness. Its symptoms are dry, itchy scalp, dandruff, oily hair, head scales, and progressive hair loss.

So, if you are beginning to notice that your forehead is getting larger, beginning to notice that there is too much hair on your comb, beginning to be worried about the dry-

ness of your hair, the itchiness of your scalp, the ugly dandruff — these are Nature's Red Flags warning you of impending baldness. Even if you have been losing your hair for some time, don't let seborrhea rob you of the rest of your hair.

HOW COMATE WORKS ON YOUR SCALP

The development of an amazing new hair and scalp medicine called Comate is specifically designed to control seborrhea and stop the hair loss it causes. It offers the opportunity to thousands of men and women losing their hair to bacterial infection to reverse the battle they are now losing on their scalps. By stopping this impediment to normal hair growth, new hairs can grow as Nature intended.

This is how Comate works: (1) It combines in a single scalp treatment the essential corrective factors for normal hair growth. By its rubifacient action it stimulates blood circulation to the scalp, thereby supplying more nutrition to still-alive hair follicles. (2) As a highly effective antiseptic, Comate kills on contact the seborrhea-causing scalp bacteria believed to be a cause of baldness. (3) By its

keratolitic action it dissolves ugly dandruff. By tending to normalize the lubrication of the hair shaft it corrects excessively dry and oily hair. It eliminates head scales and scalp itch.

In short, Comate offers you in a single treatment the best that modern medicine has developed for the preservation of your hair. There is no excuse today except ignorance for any man or woman to neglect seborrhea and pay the penalty of hair loss.

COMATE IS UNCONDITIONALLY GUARANTEED

To you we offer this UNCONDITIONAL GUARANTEE. Treat your scalp to Comate in your own home, following the simple directions. See for yourself in your own mirror how after a few treatments, Comate makes your hair look thicker and alive. How Comate ends your dandruff, stops your scalp itch. How Comate gives your hair a chance to grow. Most men and women report results after the first treatment, some take longer. But we say this to you. If, for any reason, you are not completely satisfied with the improvement in your own case — AT ANY TIME — return the unused portion for a prompt refund. No questions asked.

But don't delay. For the sake of your hair, order Comate today. Nothing — not even Comate — can grow hair from dead follicles. Fill out the coupon now, and take the first step toward a good head of hair again.

Male pattern baldness is the cause of the great majority of cases of baldness and excessive hair loss. In such cases neither the Comate treatment nor any other treatment is effective.

Note To Doctors
Doctors, clinics and hospitals interested in scalp disorders can obtain professional samples and literature on written request.
